Keywords: HIGH TECH / RESULTS

Microwave Vision Sales

Q1 2012: €9.7 million

▪ **Consolidated non-audited sales for Q1 2012 stand at €9.7 million across all sectors, up by 2% compared to sales achieved over the same period in 2011.**

The Civil Telecommunications sector has gained momentum on all three continents. There is also evidence of a rebound in sales contacts in the automotive sector, which should start to materialize in 2012.

The Aeronautics and Defense sector has also experienced great momentum, mainly in Asia and Europe. Opportunities in this industry are increasing in North America and some of these have been realized in the second quarter.

Furthermore, the expansion of its sales network is underway with its new Dutch subsidiary, Microwave Vision Benelux, aiming to ensure solid growth in the Industrial and Environment control sectors.

The Group is confident in its ability to reach its growth and profitability targets set for the 2012 fiscal year.

About MICROWAVE VISION

MICROWAVE VISION Group – MVG - (NYSE-Euronext: ALMIC) is one of the leading world producers of antenna test and measuring systems for the radiocommunication, automotive, defense, and aerospace fields. With the inclusion of the business activities of ORBIT/FR Inc, an American company in which the Group purchased a majority interest in May 2008, MVG is strengthening its position on its markets by offering the most innovative and comprehensive solutions available. This includes high-precision electronic scanners developed by SATIMO INDUSTRIES using its "microwave vision" technology and ORBIT/FR products developed using high-performance positioner and electromechanical scanner technology. MVG is present in nine countries – France, Italy, Germany, Netherlands, Sweden, USA, Israel, China, Japan- and has 260 employees. The group boasts a clientele of major international accounts. It recorded a turnover of €44.03M for its year ended 31 December 2011. MVG is OSEO certified "Entreprise Innovante" (Innovative Company).
