Key Words: MVG / AR / Turnkey Solutions

AR and MVG sign Memorandum of Agreement to provide turnkey solutions

▪ With this agreement, both AR (Amplifier Research) and MVG (Microwave Vision Group) offer a greater choice of quality EMC and Antenna Measurement turnkey solutions based on their combined expertise and product portfolio.

AR brings its brand name, experience, and extensive line of EMC and RF/Microwave products to marry with MVG installation expertise and diverse product range, starting with MVG-EMC shielded anechoic chambers, shielded rooms and absorbers products, to deliver quality, high performance turnkey products for EMC and other markets.

Philippe Garreau, CEO of MVG, states:

“AR and MVG have built a strong relationship and understanding of their customers. By combining our product lines and this knowledge, we will be able to offer a one stop shop of quality, tailored, EMC solutions”.

Don (Shep) Shepherd, Chairman AR, adds:

“AR has an enviable reputation in the EMC Test System business. The knowledge and experience of our systems engineers combined with our extensive range of EMC instrumentation means the addition of MVG-EMC Anechoic test chambers will allow us to supply state of the art solutions and offer unrivalled support to our customers”.

About AR – Amplifier Research

From humble beginnings in his basement in 1969, Don (Shep) Shepherd has built the company into the leader in supplying RF/Microwave broadband power amplifiers and EMC instruments to the marketplace. The growth and commitment of AR is evidenced by the recent 10,000 sq. ft. addition, which provides us with the capability to design, test, and manufacture solid-state RF amplifiers well in excess of 100,000 watts. AR provides a multitude of unique RF solutions to organizations around the world, and our limitless support network reaches the far corners of the globe. When users purchase from any AR company they have the peace of mind that comes from knowing the global leader will be there to help with any problems today, tomorrow and always.
